

MEMBERS ONLY MICRO QUEST: 50 POINTS

AIRBORNE WORD CHAIN

To work with the above word chains, you must replace a single letter from the previous word to create a new word. For example, in the first chain, we have replaced the “F” in “FRAYS” with a “P” to create “PRAYS.” Continue the process until you get to the end of the chain with a new word. While there are many possible words that can be created through this process, you are tasked with ending each chain with a word that represents a flying vehicle. After you’ve identified each vehicle, or have simply given up, head over to the [Above The Clouds MOMQ](#) page and let us know how you did.
